WARNING TO SCHOOL AUTHORITIES.

A party, or parties, is at present operating in this province among teachers and school trustees in order to sell certain school charts. We have been asked to warn interested parties, and the following affidavits will show the tactics pursued:

I, Leonard Horne, Hill End, Alberta, Chairman of Hill End S.D., No. 249, Province of Alberta, make oath and say:

That an agent, selling a chart known as the "School Series," published by the Caxton Co., Toronto, called on me on March 11th, 1907, at my residence, situated on N.W. cor. 15-36-30, west of 4th st., and I, the said Leonard Horne, stated that we (the school board) do not want to put any equipment in the schoolhouse unless it is recommended by the Inspector. He, the said agent, then told me that he had visited the Aberdeen S.D. trustees, and the said Aberdeen trustees recommended to place the above-mentioned chart in their school, and that he, the said agent, had written the Inspector of Schools inquiring whether the said Inspector of schools would recommend the said chart, and whether placing the said chart in their schools would increase the government grant to their school. The said agent further stated that the said agent had received a reply from the said Inspector of schools to the effect that the government grant would be increased in the said Aberdeen S.D. by six or seven dollars by placing the said chart in their school.

(Signed) LEONARD HORNE, Hill End, Alberta, Chairman of Hill End S.D., No. 249, Province of Alberta, this twenty-fifth day of March, 1907.

(Signed) J. F. BOYCE, A Commissioner in and for the Province of Alberta.

I, Harry Abner Malcolm, Inglewood, Alberta, Secretary of Aberdeen S.D. No. 291, of the Province of Alberta, make oath and say:

That I have had no correspondence with J. F. Boyce, Red Deer, Alberta, Inspector of schools, relative to a school chart known as the "School Series," nor have I received any communication either written or verbal from the said J. F. Boyce relative to the said chart.

(Signed) H. A. MALCOLM, Inglewood, Alberta, Secretary of Aberdeen S.D. No. 291, of the Province of Alberta, this twenty-fifth day of March, 1907.

(Signed) J. F. BOYCE, A Commissioner in and for the Province of Alberta.

Following is taken from the Farmers Advocate:—"Being an old subscriber from the Edmonton district, staying or wintering in the Okanagan Valley, and having the welfare of our province at heart, I find that some of our Alberta butter-makers are hurting the trade, as they are sending light weight butter here; bricks do not weigh the full pound with the paper and almost all go an ounce and a half short. This is hurting the trade of Alberta and should be stopped. The creamery that offends (I will give you the number of it on a separate piece of paper) is a Government institution. I have weighed bricks that went as low as twelve and a half ounces. There should be a law that would put the maker on the stone pile or as we found in the north the most effectual. The Government wool pile with a mounted police man and a gun as a persuader to work. I can prove my statements by plenty of witnesses." Summerland, B.C. C. N. WILLIAMS.

(We have drawn the attention of Superintendent Marker to this matter, and we are sure if complaints were forwarded to him at the Dept. of Agriculture, Edmonton, a remedy would soon be applied.)

Being offered tempting prices for heavy horses, a number of farmers have sold their teams. The demand for horses is great, and it is confidently predicted that prices will still advance.

John Hageman, chairman of local improvement district 22-3-4, has drawn our attention to the dumping of manure and dead carcasses right on the roadway. This practice must cease, and that right away.

C. P. Humphrey arrived in town this week, his car coming in two days later. Mr. Humphrey states that the railroads are completely tight with outlying cars, and that engineers are crossing the line in thousands. We extend a hearty welcome to Mr. and Mrs. Humphrey and family to our midst.

We regret to record the severe illness of Cook Mary. He caught a severe cold some weeks ago, but was going on nicely till last week when he became quite sick. Mrs. Mary accompanied him to Edmonton on Monday. It is hoped the change will be beneficial, and that he will soon return fully restored.

Dan. Campbell, of Edmonton, spent the Easter holidays in town.

Dabo Talk left for B.O. this week.

Geo. Horn, our officer of the law, turns out in a neat up-to-date police uniform.

W. S. Jamieson was not the least conspicuous personage in Harlequin this week.

Not so many attended the Thursday Cransery meeting last Thursday when three government officials spoke on poultry, dairying and hog raising.

The Ponoka Land Company's office is in the carpenter's hands, and will be open for business in the course of a day or two.

That was certainly a capital dance in the C.O.F. hall Monday night. The attendance good and the music first-class.

Mrs. Laura Chittie left on Tuesday for Edmonton, where she intends taking a course in the Alberta College.

Mrs. F. M. Lee returned from her three months' trip on Monday. Mrs. Lee travelled a good deal, and comes back in the very best of health and spirits.

A. B. Rowley, of Bonnie Glen, was a welcome visitor in town this week. He predicts great things for his district, and is looking forward to a very busy season in the lumber trade.

Henry Hertz sold his fine farm, four miles south of town, last week to A. W. Welch. We understand the sum paid was \$20 per acre, and the land is well worth that sum. Mr. and Mrs. Hertz are to visit friends in California prior to investigating points on the new line west of Edmonton. Mr. Welch is practically a stranger here, but comes with high credentials, having been manager of a large estate in Germany for a number of years, and is a thoroughly practical farmer. It is understood he is going in for the raising of Clydesdale horses, hog and sheep, and is to make some radical changes on the farm buildings.

Clinton Woodward, of Ewing, is in town this week on business.

Geo. Owens, of Edmonton, was in town this week and purchased some fine horses.

Julius Stevens, of Riverview, Washington, was in town last week on business.

Land is booming, and many strangers are to be seen on the streets, and quite a bit of changing hands. During the month of March C. W. Segerson sold 1700 acres of land, amounting to \$17,100.

The large water tank that the C.P.R. is having erected at the railway station is nearing completion, and by the close of this week it is expected the workmen will have gone elsewhere. Foreman Tom Hagen and his staff—fourteen hands—deserve credit for the expeditious manner in which the structure has been erected. Notwithstanding that many nationalities are represented—some from dear old Ireland, with the sweetest brogue; others from the far north of Scotland—Himself in fact—and a few "go-by-the-mine-Charlie's" a veritable babel of tongues—the work goes merrily on. Not a few of the town's people have been more than delighted standing by and listening to their blarney.

Straight Talk

To Sharp Shoe Shoppers.

On the superficial observer there may not seem to be any great difference in the different makes of shoes selling at the same price, for in style and finish, among the leading makes of good reputation, there is seldom any particular preference. But in comfort, service, durability, and all round satisfaction there is a world of difference in different makes of shoes that sell for precisely the same money. And it is precisely because of that difference that this Store does the Shoe trade of Ponoka. Our prices are not so very much different from the usual low figures, but we do aim to give, and we do actually give the best shoe values, price for price and dollar for dollar, that can be had in this town. In fact, length of service and general satisfaction the shoes we sell are in every case the very best that can be had at their prices. We have studied the shoe question from every angle for years and have experimented with and tested every well known make on the market, and we have satisfied ourselves that the makes we now carry represent the very best value that could possibly be given. Is it not with good reason that the Sharp's Shoppers in this vicinity trade at Lee's.

The Right Shoe for Men

For hard knocks we recommend the famous McCready No. 91, at \$3.50 a pair. Winter Calf, soft and pliable, will not get hard or crack, has a viscolized Waterproof sole. For finer wear we have the McCready No. 5, at \$2.50; No. 44, at \$3.00; No. 35, at \$3.50 and No. 10, at \$4.00.

The Right Shoe for Women

The McCready No. 248, at \$2.25 a pair, is an excellent shoe for ordinary wear. Best Box Calf with heavy sole for damp weather. The McCready No. 3044, at \$2.00; No. 322, at \$2.50; No. 3114, at \$3.00, and No. 6053, at \$3.50, are all splendid values and are sure to suit you. We take the utmost pains in every case to secure a perfect fit.
